Instructions

Please print clearly or type all information on the application (pages 3-8) and submit to:

Butte County Air Quality Management District
629 Entler Avenue, Suite 15
Chico, CA 95928

Or fax to (530) 332-9417

Fill out one (1) application for each engine or piece of equipment. The 2017 Carl Moyer Program (CMP) Guidelines are available on the District’s website at www.bcaqmd.org or at California Air Resources Board (ARB)’s website at http://www.arb.ca.gov/msprog/moyer/guidelines/current.htm. Please note that additional information may be requested from the applicant in order to process this application.

General Eligibility Criteria
To be eligible for funding, projects must meet the criteria described in the 2017 CMP Guidelines and all current CMP Advisories. These criteria include, but are not limited to the following:

- Emission reductions obtained through CMP projects must not be required by any federal, State or local regulation, memorandum of agreement/understanding with a regulatory agency, settlement agreement, mitigation requirement or other legal mandate.
- Projects must meet a cost-effectiveness established by the District and calculated in accordance with the cost-effectiveness methodology in the 2017 CMP Guidelines. All State funds plus any other funds under a district’s budget authority or fiduciary control contributed toward a project must be included in the cost-effectiveness calculation.
- No emission reductions generated by the CMP shall be used as marketable Emission Reduction Credits, or to offset any emission reduction obligation of any person or entity.
- No project funded by the CMP shall be used for credit under any federal or State emission averaging banking and trading program.
- Funded projects must have at least 75% of their total activity for the project life in California.
- Emission reduction technologies must be certified/verified by ARB and must comply with durability and warranty requirements. For the purposes of the CMP, a technology granted conditional certification/verification by ARB is considered certified/verified.

Off-Road Equipment Eligibility Criteria

- ARB has adopted in-use fleet rules affecting off-road Compression Ignition (CI) equipment: the Regulation for In-Use Off-Road Diesel-Fueled Fleets (Off-Road Regulation). Portable engines are regulated under the Portable Airborne Toxic Control Measure (ATCM). There are limited funding opportunities for equipment subject to these rules.
- Existing engines must be greater than 25 horsepower (hp) (19 kilowatts). If actual engine hp cannot be determined, hp can be estimated by the following:
  - Engine hp = Power Take-Off x 120%
- Grant amount must be based off new engine within 125% of the hp of the existing engine.
• The owner must be in compliance with federal, State, and local regulations. Use the table below to determine if the existing engine is eligible for funding.
• The only forklifts eligible for funding under this application are Class 7 diesel forklifts.
• For fleets subject to the Off-Road Regulation, applicants must submit the Diesel Off-Road Reporting System (DOORS) Identification Number (ID), Engine Identification Number (EIN), and results of the fleet calculator. See 2017 CMP Guidelines Chapter 5(E).
• Stationary agricultural engines must be registered with the District.

1. Limited opportunities means a fleet’s compliance status with the ARB regulation must be determined. Contact District CMP staff or consult fleet rule CMP Implementation Charts at: http://www.arb.ca.gov/msprog/moyer/guidelines/supplemental-docs.htm in addition to these guidelines.
2. Regulation for In-Use Off-Road Diesel-Fueled Fleets: http://www.arb.ca.gov/msprog/ordiesel/ordiesel.htm
3. Regulation for Portable Engine ATCM: http://www.arb.ca.gov/diesel/peatcm/peatm.htm

Additional criteria may be found in the 2017 CMP Guidelines Chapter 5: Off-Road Equipment
This application is to be used for incentive funds for stationary/portable agricultural irrigation pump repowers, engine replacements with electric motors, off-road equipment repower projects, and engine retrofit projects. Additional information may be requested during the review process if needed. The applicant acknowledges that award of cash incentive is conditional upon approval by the District and must meet the minimum eligibility criteria.

1. Number of applications being submitted: _______________

2. Project Name: ____________________________________________________________

3. Project Life: □ Maximum (see notes below)
   □ Other: _______________________________

4. Funding Requested: □ Maximum (see notes below)
   □ Other: ________________________

5. Percentage of operation in California: _____________________________

6. Counties in which the equipment operates: __________________________________
________________________________________________________________________

7. Percentage of operation in each of above counties: ____________________________

8. Project Type (select one):
   □ Repower diesel agricultural irrigation pump engine with a diesel engine
   □ Repower diesel agricultural irrigation pump engine with an electric motor
   □ Repower SI engine with a current Model Year SI engine or electric motor
   □ Repower and/or retrofit a portable agricultural engine
   □ Repower and/or retrofit other off-road equipment

9. Method of equipment purchase (please note, the grant is designed as a reimbursement):
   □ Purchase in full
   □ Use of short-term financing (PO account, Net 30 terms, etc.)
   □ Use of long-term financing (the grant amount must immediately go towards principal).
     Lease agreements are not allowed.

The maximum project life for off-road CI projects are as follows:
- Repower only (no retrofit) – seven (7) years
- Retrofit – five (5) years
- All agricultural projects – ten (10) years
