

**WOODSMOKE REDUCTION PROGRAM  
Retention of Existing Wood-Burning Device  
Certification Form**

The incentive provided to install an electric heat pump is intended to significantly reduce the emissions of greenhouse gases, particulates, and smog-forming pollutants. The Woodsmoke Reduction Program recognizes the need for a reliable heat source and can allow the homeowner or tenant to retain the existing wood-burning device for use **only** when the heat pump is unable to be used due to a power outage.

Homeowner's or Tenant's name: \_\_\_\_\_

Address where new device was installed: \_\_\_\_\_

\_\_\_\_\_

\*\*\*\*\*

I certify that the existing wood-burning device will **only** be used in the event of a power outage when the installed electric heat pump is not operational. (please initial).                      \_\_\_\_\_ Yes

**Signature (Homeowner/Tenant):** \_\_\_\_\_ **Date:** \_\_\_\_\_

Print Name: \_\_\_\_\_

Title (Homeowner/Tenant): \_\_\_\_\_
